Ferraby Lionheart
Catch the Brass Ring - NETTWERK
Filter Grade: 85%
by Jeremy Moehlmann | 09.06.2007

Los Angeles loves its lonely troubadours. You know the music: slightly theatrical, a little folksy, each song's sunny surface hiding a vague melancholy. The lyrics are reflective, the pacing slow and the piano prominent. Ferraby Lionheart is the perfect example—while not as distinctive as a Wainwright, Ferraby sings with the same slightly droopy intonation, letting the melodies slowly drip out of his mouth rather than spewing them forth like a Jackson Pollock painting. This troubadour may not be lonely for much longer.
